New Contracts Are Being Negotiated In Local Industries

C. Irwin Hochhaus, plant manager of the DeLuxe Metal Furniture Company of Warren, a division of the Royal Manufacturing Corporation of Chicago, said today that a new contract has been signed with the United Electrical Radio and Machine Workers of America by which DeLuxe employees are granted a ten cent an hour increase in pay, two cents an hour bonus to night workers, and triple pay for holiday work.

"Neither this bonus nor the entire ten cents an hour increase can be paid by the company until approved by the Wage Stabilization Board," said Mr. Hochhaus.

Weak, Run-Down Men and Women Often Feel and Act Years Younger When They Take Ferrizan

Thousands of men and women find the strain of modern life and work exhausting—their energy and vitality gone—their vitality and strength at a low ebb. Often because they fail to get from their food the proper amount of iron and iodine, and the necessary valuable vitamins every one needs if they expect to regain and retain a normal, healthy body.

It is surprising that Doctors tell such folks to ease up—get more rest—give their tired nerves and body a chance to get well—and take vitamins? Certainly not. The Vitamin-Mineral way is the modern way—the tested, proven way; and one right way is to take Ferrizan, the complete modern dietary supplement that gives you each and every day a full supply of the important B Vitamins, with plenty of iron to enrich the blood and the full daily requirement of that most important element—iodine, so universally deficient in inland areas.

To all who suffer from these depressing symptoms we say, "try Ferrizan at our risk for thirty days. See if it doesn't bring about a remarkable improvement. If it fails or if you are in any way dissatisfied, it won't cost you a penny," says Mullen Drug Co.

Campers Enjoying Tents in Spite Of The Cold Weather

(By the Camp Reporter)

In years gone by the lads at the Lutheran Boys' Camp have had the practice of painting each other with various colored medicines while the victims slept. This year's crop of youngsters rather like the idea of being painted and regularly daub their faces with red solutions to have the appearance of Indians. There may be some of the boys in town next week when the campers return to Warren.

Everyone seems to enjoy the tents in spite of the cool weather. Very few show any trace of colds and the entire camp is surprisingly healthy. From rolling out time in the morning and the exercises on through the day the boys are filled with more energy than an atomic bomb.

Yesterday the usual round of games were played and the competition is getting more warm each day as the various groups try for first place in the "league" schedule. In the evening a treasure hunt was staged through the surrounding woods and that was followed with the customary camp fire.

A number of boys were awarded the camp "L" for having met all the requirements. A special effort is made to have each fulfill these requirements which include memorizing of a hymn and a Bible passage as well as craft achievements.

NOTICE

BLACK BEAR SEEN ON OLD IRVINGDALE ROAD

"It's only a black spaniel or something like that," a pedestrian on the old Irvindale Park road told two girls who ran to him at 3 p. m. Wednesday and said they had seen a small black bear.

Just at that time, and to the gentleman's surprise and discomfort, Mama Bear appeared on the scene, was joined by the cub, and away they went into the bushes across the road.

The two girls were Carol Jensen, 3 Leroy street, and Regina Leonard of New Castle, who is visiting in the Guy McCloskey home, 320 Park street.

Later in the day, a local resident telephoned Station WNAE to report having seen two large bears on the same road.

Penn Tenpin Lanes Open September 4

Penn Bowling Center will open for the 1951-52 season on Tuesday, September 4 at 6 p. m., Manager Pete Juliano announced today. There will be open bowling from that date until opening of the league season the week starting Monday, Sept. 17.

Penn Bowling Center this year will feature the newly installed Brunswick Range-Finders, used by spot bowlers, and also the new Brunswick coin-operated automatic ball cleaner.

The Knights of Columbus State Tournament will start at the Penn lanes on Saturday, October 20, and will extend over three weekends. Open bowling for those three weekends will be limited to Sunday nights.

Juliano said there are some team openings in both the men's and women's leagues, and those interested in signing up are asked to leave their names at the alleys. Interested bowlers wanting to sign up with a team also are asked to leave their names at the alleys.

In this connection, a mixed league for teams of two men and two women is being formed for Friday nights at 9 p. m.

TODAY is pay day for all the folks who have classified ads.

BLOODMOBILE FALLS BELOW 150 QUOTA

Red Cross officials announced that 135 pints of blood were donated yesterday, 15 pints below the quota assigned. The figures showed that only 13 persons were rejected for the various physical reasons.

While 208 persons were scheduled to give blood, 66 of these failed to keep their appointments and another 16 telephoned their cancellations. However, during the day 26 "dropped in" to volunteer donations of blood.

Penelec Officials End Probe in Death Of Corry Lineman

Pennsylvania Electric Company officials have closed their investigation into the electrocution of William Russell Patterson, East Main street, Corry, who was killed Monday afternoon when he came in contact with a high-voltage wire while completing installation of a transformer on the line between Corry and Columbus.

As officials reconstructed the accident, they said it was apparent that Patterson had forgotten to disconnect the riser line carrying 12,000 volts into the new transformer which had just been installed.

Just a few seconds earlier he had disconnected the riser and made one adjustment on a control in the transformer in an attempt to lower the voltage. Since the control is immersed in oil, the adjustment is made by the sense of touch. After the riser was connected again by using a special insulated "stick" the voltage was found to be too high.

It was while attempting to make the second adjustment that the fatality occurred. A badly burned wrench found at the scene indicated the victim had attempted to open the transformer to make the change while forgetting to disconnect the single line carrying power into the transformer.

John Chillock, who was working with the victim at the time of the mishap and was admitted to the Corry Memorial Hospital suffering from shock and exhaustion, was discharged yesterday.

Voice of the People

Not so long ago I read in your paper where Senator Chapman was trying to pass a bill against the cruel use of animals. You should live in Clarendon where you can't have a cat because some hard-hearted people have to have gun practice and shoot them. I think something should be done about it. It is quite hard to watch a little girl watching for her kitten to come home but never does. Just what kind of Americans are people who can shoot a dumb, innocent animal.

If You Really Love Him, You'll Think He's Wonderful

"It's really a good idea for a wife to keep up the pretense that her husband is wonderful after she has discovered that he is just an average sort of guy, sometimes right, sometimes wrong, sometimes lovable, sometimes exasperating?" asks a wife.

If she loves him, she will probably think he is wonderful, even though she knows he isn't perfect.

If she loves him, there won't be any need for pretending anything. He's her man—and he is wonderful.

Of course, she may not always think he is right. Of course, she will have moments—maybe even days or weeks—of being exasperated with him.

And if she isn't afraid to be herself she'll say when she thinks he is wrong. She'll let him know when she is exasperated.

She won't pretend to agree with him or pretend to like behavior that annoys her.

TENDS TO OVERLOOK FAULTS

BUT if she loves him, she'll think he is wonderful most of the time. Because a woman who loves a man tends to think more about his good qualities than about his faults.

Loving him, she wants to think he is wonderful—and so she does. That is why she doesn't have to pretend. For if a woman thinks a man is wonderful, he knows it. He can sense the fact that even though she doesn't always think he is right or always approve of what he does, she still thinks he is extra special.

Actually a woman can't fake that feeling for long, anyhow. If it is honestly there, all her attitudes will reflect it. If it isn't there, her real feelings are going to show sooner or later.

So the best advice for a wife isn't to pretend her husband is wonderful. It's to dwell more on his good qualities than on his faults—and then he'll seem wonderful.

Inter and Jordan Wedding At Lottsville August 18th

The Lottsville Methodist church was the scene of a pretty wedding at 2 p. m. Saturday, August 18, when the Rev. Victor Redfoot united in marriage Lois June, daughter of Mr. and Mrs. Emery C. dan, Lottsville, and Thomas William, son of Mr. and Mrs. John Inter, Pittsfield.

Given in marriage by her father, the bride wore a gown styled with off-the-shoulder lace bodice and full satin skirt extending to a chapel length train. A lace cap with seed pearl trim held her fingertip veil and she wore lace mitts. A white orchid topped the white Bible which she carried.

Her only attendant was her sister, Mrs. Lenore Schepper, Lottsville, gowning in aqua net over satin and carrying a colonial bouquet of pink carnations.

Richard Inter, Erie, served his brother as best man and ushers were Charles Jordan, brother of the bride; Eugene Hynick, Detroit; Ernest Nelson, Erie, and Alan Ott, St. Louis.

A reception for 100 guests followed in the Jordan home, Mrs. Howard Jordan, sister-in-law of the bride, presiding and Janet Jordan in charge of the guest book. Other aides were Mrs. Carl Christensen, Hinsdale, Ill., and Jessie Mitchell, Corry, aunts of the bride.

Following a wedding trip to Philadelphia, the newlyweds will reside in Corry. The bride was graduated from Youngville High in 1949, attending Slippery Rock State Teachers College, and is employed as a cashier in the Corry Loblaws store. Mr. Inter is a graduate of Erie East High School and a student at Clarion State Teachers College.

JACOBY ON CANASTA

KNOW HOW TO USE YOUR LUCK

By OSWALD JACOBY

Written for NEA Service

Whenever a player wins consistently at a card game, people are bound to say that he's lucky. Maybe he is, but maybe he also gives his luck a chance to operate.

For example, they started a game of Canasta fairly late the other night at the Cavendish Club in New York. Two of the players knew what they were doing, and the other two were bridge players out for a brief vacation. The two experienced Canasta players cut together as partners. They had a very lucky time together.

On the first hand, one of them melded three aces and three sixes from his hand. His partner, at his next play, drew and then held:

A, K-K-K, Q-Q, J, 8, 7, 5, 3, 2.

His play turned out very well, but it wasn't luck. Just for the fun of it, decide what you would do before you read any farther.

Our "lucky" hero knew that his partner could have stopped after melding three aces. Only 50 points were needed for the initial meld, so why were the three sixes added? The reason for the additional meld was to show a very fine play for a fast out.

This kind of signal calls for cooperation, so the lucky man promptly added his ace to make a four-card base. Next he put down three kings, just in case they were needed to take care of an odd card or two in his partner's hand. Then he seriously considered adding the deuce, to the aces or putting down the deuce with a pair of queens.

He finally decided to meld nothing more at that turn, and discarded his black three.

The original melder had five cards left in his hand; three wild cards and a pair of kings. At his next turn he melded out, before the opponents had even made their first meld.

Of course, it was very good luck that the original melder's odd cards happened to be a pair of kings. If it had been another pair, he'd have needed a good draw or another turn to meld out. If he had held two odd cards instead of a pair, maybe he wouldn't have

made that dramatic six-card meld from his hand.

But while we're talking about luck, let's remember that the lucky pair could not have taken advantage of their good fortune unless they had made the right plays. It takes skill and partnership understanding to make the most of their cards.

SMALL FRY MODELS—These six youngsters served as the models for the childrens style show held yesterday afternoon and evening at Tiny Town Children's Shop, 424 Pennsylvania avenue. The models, obtained through the courtesy of the Rapp Dance Studio, were (front row, l. to r.) Kathy Donnelly, 4, and Judy Kintner, 4; (back row, l. to r.) Teddy Proukou, 4, Diane Anderson, 7, Linda Berenfield, 9, and Marshall Feldman, 9. Each of the models made at least six style changes in the program which ran almost an hour. Mrs. Paul Benson did the commentary. Featured in the fashion show were the back-to-school styles for the seven to 10 size group which Tiny Town is now carrying. Outstanding items included the variety of plaid dresses and grow-a-year coats. Storm coats for both boys and girls will no doubt set the pace for winter wear this season with special emphasis on water-repellant and crease resistant fabrics. In boys wear, coats and tweeds were highlighted as being both eye-catching and practical. A definite trend was noted toward higher styling in boys wear. With the addition of sizes seven to 10, Tiny Town is prepared to handle all clothing requirements for children from infancy to preteen school. The response evidenced at yesterday's fashion show indicated an overwhelming approval of this modern and progressive childrens shop which only last week celebrated its first anniversary in Warren. REPORTING

A problem which has troubled literary critics for years was voiced recently by a little girl watching a television program. Her father tuned in during the middle of a Western and the little girl protested, "But I can't tell which ones are the good guys!"

Some of the most memorable characters in literature have been difficult to classify as good or bad. In the CRIME OF SYLVES-TRE BONNARD, by Anatole France, kindly old M. Bonnard protects young Jeanne by adducting her, thus committing a "crime". Yet he is the soul of goodness at the same time that he is a criminal in the eyes of the law.

The above book is an example of how impossible it is to make a technical classification of goodness. Thomas Mann's powerful novel, "BUDDENBROOKS", shows the effect of weakness rather than badness. Beginning with Johann Buddenbrook, important German grain merchant, the story traces the gradual but steady decline of the family through several generations. It is an absorb-

ing and pathetic story of family relationships defeating each other and with no one person to blame.

Sinclair Lewis' villain in BABBITT was, of course, not a man but a type. In this story, he lashes out at the material smugness of surface living, the easily contented conscience whose purpose is fulfilled by group singing and group thinking. Babbitt is not a bad man. His tragedy is in the vagueness of his defects.

An English counterpart of Babbitt might be found in H. G. Wells' HISTORY OF MR. POLLY except that Mr. Polly is a Babbitt who rebels. He is discontented, too, but he does something about it. For this reason, Mr. Polly's story is cheerful and encouraging whereas the story of Babbitt is depressing.

There is a modern book which is a fine example of this human combination of virtues and faults. The leading character in Salinger's CATCHER IN THE RYE is a young boy whose language, actions and experiences might be those of a hardened roue. However, the boy is one of the most appealingly innocent personalities ever produced in a book. This is a first novel—and a very good one.

The amazing combinations of human qualities are the basis for the plot in all good novels. One of the great benefits to be found in reading novels is the understanding of other people and their problems. For this reason alone, reading is important.

Break-Off Believed Merely to Apply Further Pressure on the United Nations

By ROBERT EUNSON and NATE POLOWETZKY
Tokyo, Aug. 23—(AP)—Today's Red break-off of Korean war truce talks was considered only temporary by Gen. Matthew B. Ridgway's headquarters.
It is viewed as a Red high pressure tactic in a war of nerves.
"This is by no means considered permanent," said a high-ranking staff officer.
"We are considering it as just more of the same business that has been going on ever since the talks started."

Gen. Ridgway Insists Enemy Previously Decided to Break Off Kaesong Parley

(From Page One)
The abrupt Red announcement that talks were off brought varied reaction.
New York dispatches reported United Nations officials were depressed, but hopeful the talks would be resumed. Secretary General Trygve Lie was pictured as viewing the breakdown with "grave concern."

Washington reported the feeling there was that the action was possibly dictated from Moscow.
Hong Kong dispatches commented a resumption of fighting in Korea would relieve Red Chinese pressure on southeast Asia.
If full war is resumed, U. N. commanders have expressed confidence their forces can meet any Red onslaught. "We'll slaughter them," field officers said.

First intimation of the new incident came in an urgent midnight telephone call from the Reds at Kaesong to the U. N. truce camp at Munsan.

The enemy for a considerable distance to the north.

Official estimates placed Red casualties at 9,019, including killed, wounded and captured. South Korean casualties were reported comparatively light.
The battle was the most severe action along the front since early June. Opposing forces closed in bitter hand to hand fighting with bayonets and hand grenades.

There was no report of any important ground action elsewhere. Although hampered by cloudy and rainy weather, fifty Air Force fighters and light bombers strafed heavy Communist vehicular traffic on the western network of supply routes last night and early this morning.

the gaining in population and moving in industrial strength.

Gibson said that many house members feel that the reason for this static condition in the Commonwealth is that the state now taxes business and industry higher than surrounding states to the point where it discourages new business ventures here.

"To further increase these taxes on business and industry," the Sheffield assemblyman declared, "would further aggravate the situation." He added that 43 per cent of the General State Fund is now derived from taxes on industrial and commercial establishments.

THE MARKETS

New York, Aug. 23—(AP)—The stock market felt the impact of the break in Kaesong armistice negotiations today and responded with a split movement of war and peace stocks. Aircrafts and steel were higher while motors and radio-television issues were lower.
That is a traditional reaction to any development that assures a continuation of heavy American defense spending. The movement was not clear-cut. Railroads, which would be likely to benefit by heavy movement of military supplies, were narrowly mixed and not very active. Freepoint Sulphur provided all the fireworks in the wake of its announcement of its big new sulphur deposit found at the mouth of the Mississippi.

Erie County Still Debates Question Of Giving Proper Care to Mental Patients

Dispatch-Herald: The question of what to do about mental cases now lodged temporarily in Erie County Prison was still up in the air Tuesday.

And outward appearances indicate no concrete action will be taken to arrive at a solution to the problem—indirectly responsible for the death of an Erie man more than three weeks ago—for some time.

A general discussion of the problem will be held in about two weeks, according to District Attorney Damian J. McLaughlin, who is also president of the prison board. McLaughlin said a committee from the Erie County Medical Society, representatives of local hospitals and Mayor Clarence K. Pulling will attend.

The district attorney said that he has contacted Dr. Russell B. Roth, secretary of the medical society and that the physician expressed interest in the proposed discussion.

"I added that President Judge Elmer L. Evans, also a prison board member, has discussed the meeting with Dr. G. W. Fortune, president of the society.

However, local hospital representatives and Mayor Pulling have not yet been contacted in regards to the meeting.

In the meantime, McLaughlin stated, he and Judge Evans are culling statistics and data from other parts of the state to see how such cases are handled in those places.

"We want to compile as much information as possible," McLaughlin declared.

At the present time persons picked up on an "acts demented" complaint are lodged in a "padlocked cell" in the basement of Erie County Prison until arrangements can be made to have them transferred to a state institution.

To date this year, approximately 80 persons have been held for varying lengths of time in what has been termed as a "pitiful dungeon."

One of them, Isaac Alton Phillips, held there more than 60 hours three weeks ago, died shortly after finally being admitted to North Warren.

His violent thrashing in the cubicle in the basement of Erie County Prison was held contributory to his death. Several marks and bruises were evident on the man's body.

Phillips, like others, had been given a sedative to quiet his violent actions. But because no qualified personnel were in attendance what would be an adequate amount could not be administered.

Physicians report that when large doses of sedatives are given in such cases, a qualified nurse or other attendant should be on hand at all times.

Several proposals have been proffered, but the prison board, by agreement, has refused to air them until after members have met with the Erie County Medical Society.

Among the proposals are establishment of psychiatric wards in local hospitals, admittance of war veteran mental cases temporarily at the Erie Veterans Administration Hospital, creation of a psychiatric ward at the city's Lakeview Hospital and more widespread recognition by doctors of laws pertaining to confinement of mental cases by local doctors.

Existing law allows patients to be committed to mental institutions for a specified period for observation on the signature of only one physician. But generally members of the profession shy away from the practice since they do not want to assume the responsibility.

The National Geographic Society says beef did not become an important part of the American diet until after the Civil War.

Metal Needs May Cause Curtailment In 700 Factories

Philadelphia—An estimated 700 manufacturers of Pennsylvania and Delaware may face shutdown or curtailment of production in the fourth quarter of this year as a result of failure to secure allotments of steel, copper and aluminum requirements, according to the National Production Authority here.

Total available supplies of the three metals are now being distributed among manufacturers in the form of direct allotments, NPA explained. Manufacturers who did not file in time to receive fourth quarter allotments will encounter tremendous difficulty in continuing production.

Of the 700 manufacturers of the two states who did not apply for allotments of materials, close to 400 are producers of consumer durable goods who are currently included in the government's controlled materials plan for the first time since World War II. The remainder are firms who made previous applications but have failed to renew them for the fourth quarter of this year.

The July 31 deadline for applications announced early in that month was extended by NPA last week to August 15, in order to give delinquent firms, most of them small producers, a final opportunity to take advantage of the allotment system.

Yesterday was the latest practical date which will permit applications to be processed in time for entry on steel and other mill schedules for fourth quarter deliveries, NPA said.

In Philadelphia, John J. Lennon, U. S. Department of Commerce regional director, said that the regional NPA staff would work continuously in shifts if necessary to process applications mailed by midnight and return allotments to manufacturers in time for orders against mill schedules during the fourth quarter.

Lennon said that all applications which were received here by July 31, the original deadline, were acted on by August 15. Applications received after the August 15 cut off date can not be processed. But on all applications made before the cut off date, NPA action may be expected by August 25. He said the NPA regional staff was working nights and weekends to accomplish this.

Explaining the failure of many manufacturers using steel, copper and aluminum to apply for allotments, Lennon said that some firms receiving third quarter allotments had failed to realize that further application was necessary for fourth quarter materials. He said that producers of consumer durable goods, such as refrigerators, washing machines and household electrical equipment, had not in all cases realized that the allotment system, in which they are now included, will earmark the nation's supplies of the scarce materials.

Lennon said that very small users, who are not required to certify their own allotments, will be able to receive materials in preference to the delinquent larger users who have not secured allotments.

RAIN, RAIN, STAY AWAY—A number of commuters on the Chicago and North Western Railway are in for an unscheduled bath if they don't claim their umbrellas from the railway's lost and found department before the next rain-fall. Pittsburgh Firms Seek Oil Reserves Beneath River Beds

Pittsburgh—(P)—Two Pittsburgh oil firms are launching a wildcat oil prospecting venture to seek vast stores of untapped oil reserves which may be hidden beneath the river beds and swamp lands of southern Mississippi.

The first phase of the project involving the Gulf Refining Co. and Melben Oil Co. already is completed, a deal with the state of Mississippi leasing all land along its southern border from the low water mark to 21 miles out in the Gulf of Mexico, for an undisclosed price.

Some 800,000 acres of land, most of it completely or partially submerged in water, will be probed by testshootings within the next year.

The size of the holding—a 50-50 proposition between Gulf and Melben—is second only to the 1,000,000-acre holding leased by Humble Oil Co. from the King Ranch in Texas.

No official involved is willing to risk a prediction on what may be found in the territory. It lies directly east of the coastal oil fields of Louisiana and Texas.

Multi-millionaire Michael L. Benedum, often called the greatest

oil wildcatter in history, is in back of Melben's part in the transaction. He once held the King ranch lease, but disposed of it because drilling equipment had not yet been developed to exploit the land properly.

Melben already has a half interest in 120,400 acres of oil and gas leaseholders on submerged lands in the Gulf of Mexico off Texas. Benedum owns Plymouth Oil Co., which has a three-eighths interest in Melben.

Although deep drilling is necessary—at least 10,000 feet in most cases—the sandy nature of the land will permit a well of that depth to be completed in 10 to 15 days. A well of the same depth in the Texas oil fields often requires five or six months of drilling.

Sons of Italy Win, 8-3, to Even Playoff Series in Midget Loop

Sons of Italy opened up in the first inning and went on to register an 8-3 triumph over the Times-Mirror nine in a Hot Stove Midget League playoff before a large crowd at Jackson field last night.

The win for the Sons of Italy evened up the best-of-three series for the 1951 crown, the Times-Mirror team having won the opening game Monday night by a 4-3 score.

Third and deciding game in the series will be played Friday night at 6 o'clock at War Memorial field.

John Mazzuca went all the way on the mound for the victors. He struck out six batters, allowed three walks, two of them intentional, and hit one batter. He was nicked for eight safeties, including a triple by Gaffner.

Dick Tanner started on the mound for the Times-Mirror, and was replaced after 4 2/3 innings by Flick. They had 10 strikeouts, allowed six walks, hit one batter and yielded a total of nine hits.

Nicky Creola poled a double and a triple, while Mazzuca was credited with three singles in four chances at the plate.

There was quite a rhubarb cropped up in the last inning over a play at second base. Creola, playing at short, scooped up a ground ball, and stepped on second base. It wasn't a force-out, however, so Nicky made a motion as if he was tossing to first to get the ball. The runner on sec-

Maxim Is Surprise Victor in Title - Go With Bob Murphy

New York, Aug. 23—(AP)—Joey Maxim settled the world's light-heavyweight crown tightly on his swarthy brows today by virtue of his surprising 15-round decision over free-swinging Irish Bob Murphy.

It was a case of boxing science versus brawling and science won. Three tough challengers await Maxim. Most probably the champion will fight Bob Satterfield in Chicago Dec. 7. There is talk of a fight in London with the British champion, stocky Don Cockell. And out on the Pacific coast there is Harry "Kid" Matthews, who, his supporters claim, is the best of the lot.

The action-packed fight in Madison Square Garden last night came as a shock to the experts, who picked Murphy to win and made him the 12-5 betting favorite. This was Maxim's first defense of the title since he won it 19 months ago in London from Freddie Mills.

Cleveland Opens Crucial Series Against Runner-Up Yankees

By The Associated Press
Cleveland's electrifying stretch drive for the American League pennant enters another critical stage today as the Indians clash head on with the runner-up New York Yankees.

The Indians, out in front by two games, have three of their aces ready for the invading Yankees, who limped in from Detroit.

The Indians rested their big four yesterday and gambled with rookie Bob Chakales against Washington. Chakales didn't last but the Indians pulled out a 6-5 14-inning victory to increase their lead to two games.

Bob Avila homered with two out in the 14th off Sandy Consuegra to give the Indians the edge over Washington. Dale Mitchell sent the game into overtime for the Indians with a three-run homer in the eighth.

In other American League games the Philadelphia Athletics swept a two-night doubleheader from the Chicago White Sox, 5-2 and 8-1, and the Boston Red Sox beat the St. Louis Browns, 3-1, in 13 innings.

In the National League, the Brooklyn Dodgers captured a day-night doubleheader from the St. Louis Cardinals, 4-3 and 8-7. The runnerup New York Giants ran their winning streak to 11 games by defeating the Cincinnati Reds, 4-3. The Philadelphia Phils downed the Chicago Cubs, 4-0, and the Boston Braves edged the Pittsburgh Pirates, 4-3 in ten innings.

Ironmen Shut Out Floridin Co., 7-0, in Sunset Circuit

Hammond Iron shut out Floridin Co., 7-0, at the State Hospital field last night.

Rod Kerchner, ace Ironman hurler, was credited with the win and was Floridin's first whitewashing of the season. Floridin, however, still has a mathematical chance to finish in a first place tie. This could be achieved by a Floridin win over Youngsville Supers and a Sons of Italy triumph over Hammond Iron. This would leave all four teams in the loop with a 3-3 record and a four-way draw.

Hammond scored in the first inning on a single by White. He raced to second on Creola's report. Wollaston walked and a double steal put White on third and Wollaston on second. White scored from third on an attempted pick-off at second.

The Ironmen punched across another run in the third on Cummings error on a ground ball by Maasa, a stolen base and a hit through second by Reese. Hammond then added a single tally in the fourth and two markers in each of the fifth and sixth stanzas to pad their margin.

Kerchner allowed four hits and struck out 10 batters. Two walks were charged against him. Haight, on the mound for Floridin, fanned two, walked five and allowed six hits. Falvo, who replaced Haight, allowed one hit, walked two and struck out two.

The line score:
Floridin 000 000 0-0 4 0
Hammond 101 122 x-7 7 4
